PUBLIC COMMENT PERIOD
NOTICE

The U.S. Army Corps of Engineers (USACE) Huntington District will be conducting a public meeting to present the Proposed Plan for Sitewide Groundwater (Covering TNT A, B, C, and Red Water Ponds Areas) Former Plum Brook Ordnance Works, Sandusky, Ohio.

The public meeting is scheduled for Thursday March 29, 2012 at 6:30 p.m. in the Bettcher Room located on the second floor in the Cedar Point Center on the campus of BGSU Firelands. BGSU Firelands is located at One University Drive, Huron, Ohio.

The former Plum Brook Ordnance Works (PBOW) manufactured explosives during World War II. The USACE has completed a study of groundwater associated with the TNT manufacturing areas and the Red Water Ponds areas to evaluate levels of groundwater contamination and has developed a plan to address the groundwater contamination.

The proposed alternative to address the groundwater is No Further Action (NFA) and is presented in the Proposed Plan. Copies of the Proposed Plan will be available at the meeting, BGSU Firelands Library, and will be posted on the USACE Huntington District's website at www.lrh.usace.army.mil/projects/current/derp-fuds/pbow

The USACE Huntington District encourages you to comment on the proposed plan during the 30-day Public Comment Period from March 29, 2012 through April 30, 2012. Written comments may be submitted by mail, postmarked no
