MEMORANDUM FOR

COMMANDER, OHIO RIVER DIVISION, ATTN: CEORD-DL  
COMMANDER, HUNTSVILLE DIVISION, ATTN: CEHND-PM-OT

SUBJECT: Defense Environmental Restoration Program for Formerly  
Used Defense Sites (DERP-FUDS) - Plum Brook Ordnance Works,  
Sandusky, Ohio (Site Number G05OH001800)

1. This memorandum authorizes:

a. A hazardous, toxic, and radioactive waste (HTRW) project (project number G05OH001803) as described in the Inventory Project Report (INPR). Subject to availability of funds, the next phase of the HTRW project shall be a remedial investigation and feasibility study (RI/FS). The RI/FS, however, shall be of lesser scope than that required for a National Priority List site.

b. An ordnance and explosive waste (OEW) project (project number G05OH001806) as described in the INPR. Subject to availability of funds, the next phase of the OEW project shall be an engineering evaluation and cost analysis (EE/CA) to determine removal alternatives at the site. Please note that the approved project number is consistent with the number assigned by CEORD, rather than the one used by CEHND-PM-OT.

2. Execution of the HTRW project is assigned to a designated HTRW design district in accordance with the recent USACE reorganization. Execution of the OEW project through the removal design phase is assigned to the Huntsville Division. The subsequent removal action phase of the OEW project is assigned to CEORD.

3. We request:

a. CEORD, within 60 days of the date of this memorandum, ensure the landowners are notified of the decision and provide copies of the notification letters to CEMP-RF. CEORD also ensure that either CEORH or the HTRW design district updates the DERP-FUDS database within 30 days after the database is functional.

b. CEHND must periodically screen the DERP-FUDS database to ensure that geographic divisions/districts have provided the required update.

c. Both CEORD and CEHND must ensure that the respective  
projects are programed in the appropriate fiscal year workplans.
