

## **TNT Area C Proposed Plan**

The U. S. Army Corps of Engineers – Huntington District is issuing the Proposed Plan for remedial action in TNT Area C at the former Plum Brook Ordnance Works (PBOW) located in Sandusky Ohio. A Public Meeting is scheduled for March 12, 2009. The Public Meeting will initiate the 30-day public comment period and it will end on April 13, 2009. Several documents have been developed from the investigations at TNT Area C. The documents are posted on this website in an effort to provide sufficient data and information for the reviewing public to comment on the Proposed Plan. The Proposed Plan outlines the path forward for the remedial activities at the former PBOW. The documents posted herein are as follows:

- TNT Area A and C Focused Feasibility Study (LINK TO DOCUMENT)
- Addendum for TNT Area C – TNT Areas A and C Focused Feasibility Study for Soil and Sediment (LINK TO DOCUMENT)
- TNT C Proposed Plan (LINK TO DOCUMENT)

Comments on the Proposed Plan should be directed to the following individual:
