The RAB activities on December 15, 1999 included a site visit at PBOW followed by an informal meeting in which NASA provided historical photographs from the site.

SITE VISIT

During the site visit, the RAB visited the following sites:

- Red Water Ponds Area
- TNT Area C
- TNT Area B
- Garage Maintenance Area

Mr. Rick Meadows, USACE briefly commented on the status of each area and the work that has been accomplished to date.

MEETING

NASA provided historical photographs of PBOW, which the RAB had the opportunity to review. The photos included those taken before, during, and after construction of the facility as well as detailed photos of production unit operations. A suggestion was made to incorporate the photos

ET-K-15 Sandusky Bay

During our PBOW site visit on 15 December 1999, Mr. Steinen gave us a photo of Plum Brook as it heads out to East Bay, the east portion of Sandusky Bay. There are two locations marked where the Brook is meandering in 1937, but today the brookbed has moved towards the west.

If you have any questions, please see Linda Ingram or Lannae Long.
