MEMORANDUM

TO: Mark Bohne, PBOW RAB Co-Chair and RAB members
FROM: Julie Weatherington-Rice
RE: Technical review "Addendum to the Site Specific Sampling Plan"
DATE: May 1, 2006

Per our current contractual arrangement with USACE which requires both a technical memorandum for each report and an educational explanation to the RAB, this memorandum constitutes the public educational of the Jacobs April 12, 2006 "Addendum to the Site Specific Sampling Plan Remedial investigation, Part 1, at Acid Areas 2 & 3." Please forward these comments to those who should receive them.

We have reviewed the Addendum and the recommended new sampling locations. We have no objection to these locations and feel that the additional information gathered should help to clarify the boundaries of the contamination.
