Attn: Paul Jayko
347 North Dunbridge Road
Bowling Green, OH 43402

Dear Mr. Jayko,

A feasibility study (FS) addendum is being prepared for the Groundwater Project covering the TNT Areas and the Redwater Ponds at the former Plum Brook Ordnance Works by the United States Army Corps of Engineers (USACE). As required by the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA), USACE is requesting the Ohio Environmental Protection Agency, as lead regulator, to provide Applicable or Relevant and Appropriate Requirements (ARARs) for USACE review and evaluation in the FS Addendum.

Please provide a list of ARARs specific to the Groundwater Project no later than April 23, 2010. If you have any questions regarding this submittal, please contact me at 304-399-5388 or by e-mail at Richard.L.Meadows@usace.army.mil.

Sincerely,

A handwritten signature in cursive script that reads "Richard L. Meadows".
