MEMORANDUM FOR Nancy R. F. Feakes, District Ranger, Potomac  
Ranger District, HC 59, Box 240, Petersburg, WV  
26847

SUBJECT: Defense Environmental Restoration Program - Formerly  
Used Defense Sites (DERP-FUDS) Dolly Sods, WV, G03WV001304,  
Change to Schedule, Blackbird Knob

1. Reference telephone conversation between Nancy Feakes, District Ranger, Potomac River, and Lynn Frow, Huntsville Division, 25 April 1995, SAB.
2. This letter is to advise you of the change to our schedule for the Blackbird Knob Area.
3. The Wilderness record review and historical research was conducted by the contractor Metcalf & Eddy at the beginning of the Feasibility Study in 1991. We are dealing with over 5,000 acres in Blackbird Knob, or Dolly Sods North and we need more data on that particular area. It was too difficult to direct contractor sampling without more information. As the Forest Service did not own the land when the Wilderness work was done, this area was not included in the previous archival research efforts.
4. The Archive Search Report (ASR) has been tasked to Rock Island, Corps of Engineers. It will take between three to five months to complete. Work has already begun. With no problems encountered, the ASR will delay the schedule for three to five months.
5. Please be assured that everything necessary to complete this project in an efficient, thorough manner is being actively pursued.
