Attn: Rick Meadows - Follow-up to Dolly Sods North Bomb Report  
Gary Werner (volunteer) went back to the site of the 2 bombs later in  
weekend, and called me. I showed him other UXO photos. We then  
called the EOD on Sun afternoon, and let them know that we might NOT  
have bombs, but instead might have found partially buried shock  
absorbers. They were uncertain as to whether or not to still come  
after Gary's description, and were to call us at 8 this morning,  
before setting out. At 8:20AM, I called EOD, and was unable to talk  
with the person in charge of the crew to be sent here. Morris Ruddle  
accompanied Gary Werner to the "shock/bomb" site at 8:45AM, and  
returned at 10:15AM with 2 dirty and rusted shock absorbers. I called  
EOD to cancel their trip.
