DERP-FUDS MMRP PROJECT NO. G03WV001306
FEDERAL FACILITY ID NO. WV9799F3460
WVMA AMMUNITION DEPOT

WV Maneuver Area/Dolly Sods
Tucker, Grant, Preston, Pendleton, and Randolph Counties, West Virginia
23 December 2009

PROJECT DESCRIPTION: The Department of the Army (DA) utilized the former WV Maneuver Area/Dolly Sods (WVMA/DS) from 1943-1944 for low altitude mountain training, regimental troop maneuvers, and target practice during World War II. According to a 1950 Real Estate map (Figure 3, Enclosure 1), the WVMA/DS property included an ammunition depot. The Real Estate map shows the Ammunition Depot located on the east side of Highway 219, just north of Elkins, West Virginia. The WVMA Ammunition Depot served as the main storage area for ammunition during the operational period of the WVMA/DS. This MMRP project is proposed to address the possible munitions-related contamination that may have occurred as a result of the Ammunition Depot being located on the property.

PROJECT ELIGIBILITY: The Army utilized the WVMA Ammunition Depot to store ammunition for the WVMA/DS during World War II. There is a potential for munitions-related contamination based on the nature of the past Army operations at the site. The presence of Munitions and Explosives of Concern (MEC), Munitions Debris (MD), or Munitions Constituents (MC) could be the result of the Army's former use of the site.

POLICY CONSIDERATIONS: There is no policy that prohibits this project.

PROPOSED ACTIVITIES: This MMRP project will include all necessary CERCLA response actions required to obtain project close-out.

POINTS OF CONTACT: Mr. Richard L. Meadows, CELRH-PM-PP-P, 304-399-5388; Mr. Nickolas L. McHenry, CELRH-EC-CE, 304-399-5909; Mr. William D. Veith, CEHNC-CX-MM, 256-895-1592; Dr. Kari Meier, CELRL-ED-E, 502-315-6316.

LEAD REGULATOR: Mr. Donald Martin, West Virginia Department of Environmental Protection, 304-924-6211.

Table 29
MRS Priority

DIRECTIONS: In the chart below, circle the letter rating for each module recorded in Table 10 (EHE), Table 20 (CHE), and Table 28 (HHE). Circle the corresponding numerical priority for each module. If information to determine the module rating is not available, choose the appropriate alternative module rating. The MRS priority is the single highest priority; record this number in the MRS or Alternative Priority box at the bottom of the table.

Note: An MRS assigned Priority 1 has the highest relative priority; an MRS assigned Priority 8 has the lowest relative priority. Only an MRS with CWM known or suspected to be present can be assigned Priority 1; an MRS that has CWM known or suspected to be present cannot be assigned Priority 8.

EHE Rating		Priority	CHE Rating		Priority	HHE Rating		Priority
			A		1			
A		2	B		2	A		2
B		3	C		3	B		3
C		4	D		4	C		4
D		5	E		5	D		5
E		6	F		6	E		6
F		7	G		7	F		7
G		8				G		8
Evaluation Pending			Evaluation Pending			Evaluation Pending		
No Longer Required			No Longer Required			No Longer Required		
No Known or Suspected Explosive Hazard			No Known or Suspected CWM Hazard			No Known or Suspected MC Hazard		
MRS or ALTERNATIVE PRIORITY						7
